## Supplemental Information of the Organization

Airports of Thailand Public Company Limited (AOT), under the Ministry of Transport, has assumed slot coordination responsibilities since June 2023. AOT manages six international airports— BKK, DMK, HKT, CNX, HDY, and CEI—and is accountable for conducting capacity analyses across all airports under its purview.

Slot coordination is directly facilitated by AOT at the two Level 2 airports, Hat Yai (HDY) and Chiang Rai (CEI). For the four Level 3 airports, AOT oversees capacity declaration, while the Civil Aviation Authority of Thailand (CAAT) serves as the slot coordinator.

(April 2025)
