Slot Coordination at Kempegowda International Airport Bengaluru is being handled by the team of experts having experience in airport planning and airline schedule & network planning. The Slot Coordination function at KIAB is being managed by the airport operating company - Bangalore International Airport Limited. The slot coordination function at Bangalore supports in facilitating airline requirements related to slots and enabling passengers' journeys through optimal flight schedule. It also support airport operations by ensuring optimum utilization of scarce airport resources and capacity through systematic slot allocation and monitoring.
