

Asia/Pacific Airport Coordinators Association (APACA)

Agenda Item 5-1

Restriction of access to APACA website
“Minutes” section

27th APACA meeting
11 June, 2024

Change to APACA Website Access Restriction

Background

The APACA website is located on the JSC website under the APACA submenu. This APACA website consists of four sections: “APACA articles”, “Member List”, “Data Base”, and “Minutes”.

Currently this information can be accessed without restriction. Because the section “Minutes” may contain information that should be shared only with coordinators/facilitators, restrictions will be necessary.

Proposal

Therefore, it is proposed to impose access restriction to the “Minutes” section. Changes to the website will be made if agreed upon at the APACA meeting. After the change, you will be able to access the meeting materials only with ID/PW.

The ID/PW will be common to all APACA members and will be shared at the time of the change.

Welcome to Japan Schedule Coordination (JSC)

Japan Schedule Coordination (JSC) is an independent organization established for the purpose of promoting the development of aeronautics and astronautics in Japan and enhancing the cooperation with world aerospace communities. JSC is in charge of slot allocation for Narita International Airport (NRT), Tokyo International Airport (Haneda) (HND), Fukuoka Airport (FUK) and Kansai International Airport (KIX), and schedule facilitation for New Chitose Airport (CTS).
